Sessions

- 1 Generalities about AI (today),
- 2 Supervised learning,
- 3 Unsupervised learning,
- 4 Deep Learning,
- 5 Foundation models,
- 6 Multimodal models,
- 7 Debate - Ethics in AI,
- 8 Work on final project,
- 9 Final project presentation.

Sessions schedule

Each session has (roughly) the same structure:

- Short quiz about the previous lesson (10 min),
- Lesson (1h),
- Lab Session,
- Project,
- Sessions 2, 3, 4 and 9 include students' presentations

Sessions

- 1 Generalities about AI (today),
- 2 Supervised learning,
- 3 Unsupervised learning,
- 4 Deep Learning,
- 5 Foundation models,
- 6 Multimodal models,
- 7 Debate - Ethics in AI,
- 8 Work on final project,
- 9 Final project presentation.

Sessions schedule

Each session has (roughly) the same structure:

- Short quiz about the previous lesson (10 min),
- Lesson (1h),
- Lab Session,
- Project,
- Sessions 2, 3, 4 and 9 include students' presentations

Lab sessions

- Python based
- sk-learn for "classical" machine learning
- pytorch for deep learning

Written evaluations

- QCM on Moodle on the first course of the day (9:30 am in general)
- Documents or AI models to answer questions are forbidden during the QCM
- QCM have to be done in the room, **no remote access**
- Presentations - sessions 2,3,4 + **Final Deliverable** - session 9

Course organisation (3/3)

Work in groups of four.

Reversed Classroom

- The group is the teacher!
- Presentations of 15+5 minutes
- Other students evaluate each group with the same questionnaire on Wooclap after each presentation
- Sessions 2,3,4
- More details will be given on Discord

Final presentation

- Work on a project of your choice
- Evaluation by the teachers
- More details will be given in due time
